生词表

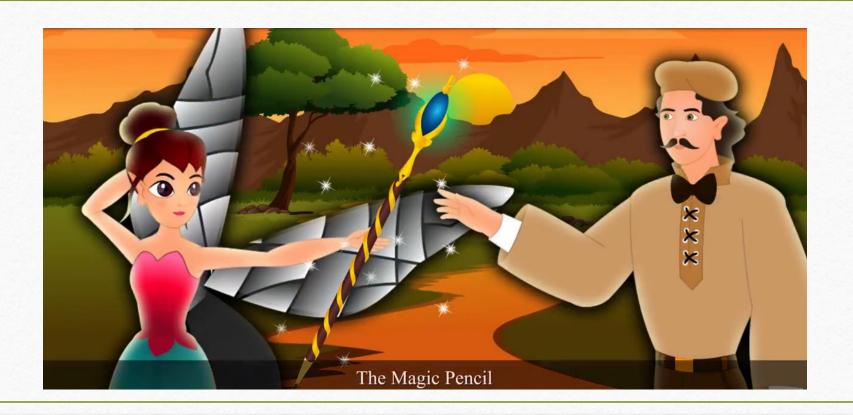

- planet 行星 temperature 温度 plant 植物 support 支持
- surface 表面 cover 表面,覆盖 desert 沙漠, 甜品
- spin 旋转, 自转 travel 旅行 atmosphere 大气层
- ray 光线 exist 存在 breathe 呼吸

- Earth is the ___ planet from the Sun in the solar system.
 - 2nd
 - 5th
 - 3rd
- How long does it take for Earth to go around the Sun?
 a week / a day / a year
- What makes Earth support life? Water, the land, and the ____
 - Sun / air / mountain

- Earth is our amazing home in space! It's the 3rd planet from the Sun, and it's just the right temperature for plants, animals, and people to live on. Earth has land, water, and air, which all work together to support life. About 70 percent of Earth's surface is covered in water--oceans, lakes, and rivers--while the rest is land with forests, mountains, deserts, and more.
- Earth spins like a top, which gives us day and night, and it takes a whole year for Earth to travel around the Sun. Earth also has a layer called the atmosphere that keeps us safe from the Sun's strongest rays and helps us breathe.
- Because of the water, the land, and the air, Earth is the only known planet where life exists. It's our job to take care of our beautiful planet to keep it healthy for all living things!

Movie Time

• Watch a movie and tell me about your thoughts
